Jigyasa Special

The Four Friends

Four unlikely friends consisted of a deer, turtle, a crow and a rat.

One fine day, a hunter's trap captured the deer while he was wandering through the forest.

When the friends found out about the deer's condition, they rushed towards him.

Through its teeth the rat cut the net apart as the crow kept the hunter distracted. The turtle kept looking out and guided them to save the deer.

The friends applied their individual special abilities that led to the successful rescue of the deer.

MORAL

"True friendship and teamwork can overcome any danger."
