Hello friends!
I am JIGGY & I am going
to tell you a story of-

The Wise Little Oak Tree

1

A tiny acorn fell onto the forest floor.
It dreamed of becoming
the tallest tree
in the forest.

2

Nearby weeds and bushes grew quickly.
They laughed at the acorn, saying, "You'll
never catch
up to us!"

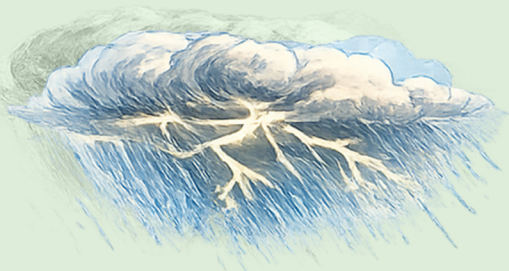

3

Instead of comparing itself to others,
the acorn focused
on growing
strong roots
deep into the
ground.

4

One year later, a powerful storm swept
through the forest. Strong winds bent and
uprooted many of the fast-growing plants.

5

The young oak tree swayed in the wind but
stayed firmly rooted. Its deep roots kept it
safe.

6

As the years passed, the oak tree grew tall
and strong. Birds built nests
in its branches, and
squirrels found
shelter in its
trunk.

7

The oak tree learned that true strength
comes from growing steadily and building
a strong
foundation,
not from
growing
the
fastest.

Moral of the Story:

Great things take time. Strong foundations are
more important than quick success.

Question for Kids ?

If you were the little acorn, would you
focus on growing fast or growing strong?
Why?

2

Jigyasa Summer Maze

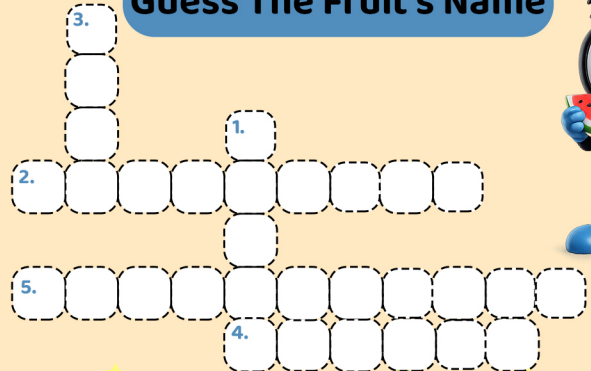

Help the squirrel find its way to the tree with acorns!

Draw a dotted line to make a path

Guess The Fruit's Name

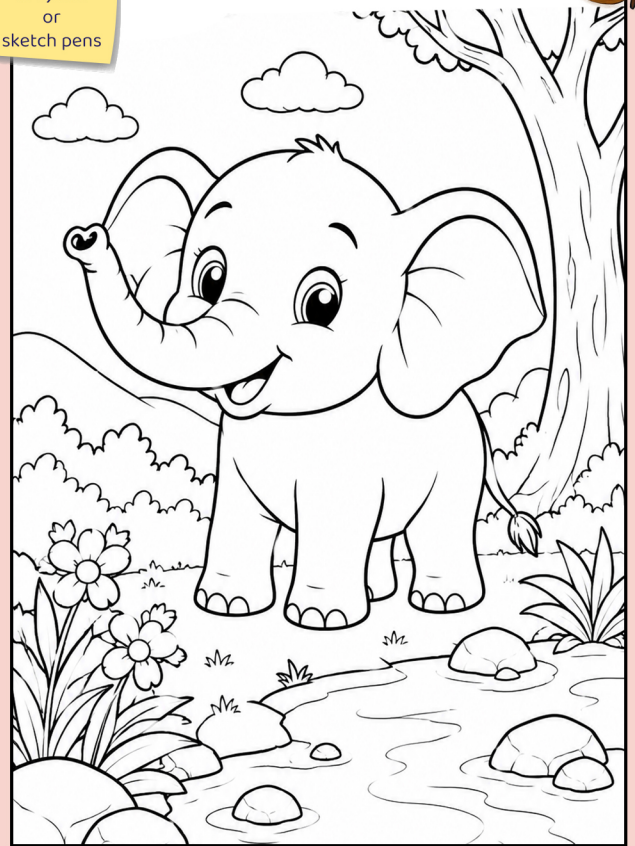

Spot The Differences

Look closely and see if you can find them all!

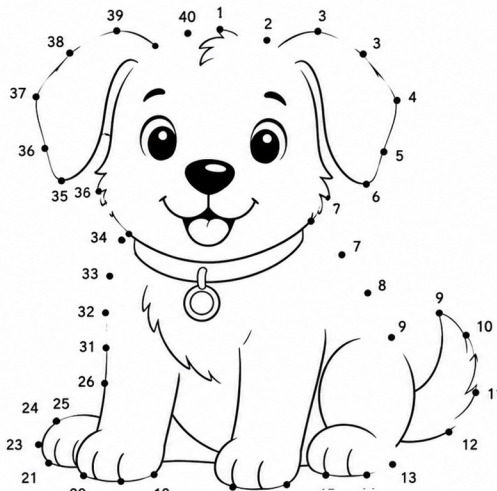

Jigyasa Artist Zone

Use crayons or sketch pens

Dot to Dot

Join the dots from 1 to 40 to complete the picture!

Connect the dots to make a figure and guess the name.

3

Jigyasa Science Facts

Human Body Facts

The Hardest Worker-Your heart, beats about 100,000 times a day, pumping around 7,500 liters of blood through your body every 24 hours.

Earth Facts

Not Perfectly Round: Because Earth spins so fast, it bulges at the center and is slightly flattened at the top and bottom. This shape is called an "oblate spheroid"

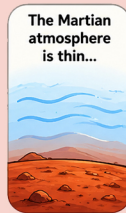

Jigyasa Space Facts

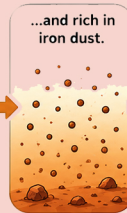

Mars has blue sunsets: The Martian atmosphere is thin and rich in iron dust. This causes the dust to scatter blue light, creating an eerie, beautiful blue sunset rather than the orange ones we see on Earth.

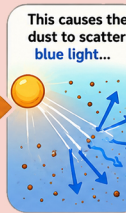

Mars has blue sunsets!

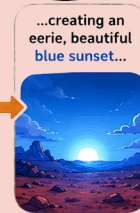

The Martian atmosphere is thin...

...and rich in iron dust.

This causes the dust to scatter blue light...

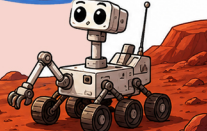

...creating an eerie, beautiful blue sunset...

...rather than the orange ones we see on Earth.

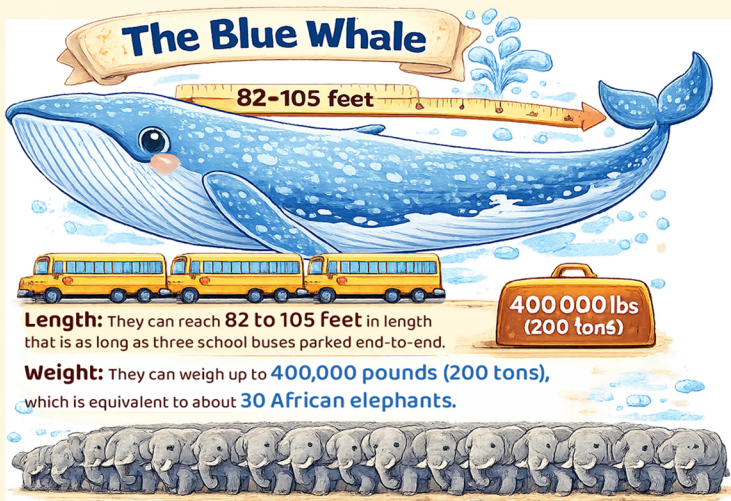

Blue light scatters more easily in the thin Martian atmosphere, so more blue reaches our eyes at sunset!

Jigyasa Fact & Figures

Did you know? The Blue Whale

Length: They can reach 82 to 105 feet in length that is as long as three school buses parked end-to-end.

Weight: They can weigh up to 400,000 pounds (200 tons), which is equivalent to about 30 African elephants.

Newborn Blue Whales

Newborn Babies: A newborn blue whale calf is already about 23 feet long and weighs around 2 tons at birth.

Quick Growth: During their first year, calves gain an extra 200 pounds every single day.

23 Feet & 2 Tons at birth!

2 Tons

Lifespan: They live a long life, typically between 80 and 90 years in the wild, with some famous individuals estimated to have lived up to 110 years!

Jigyasa Daily Life Skills

Waiting for Your Turn

1

Bunny ran to the swing because he was excited to play.

2

Bear was already swinging, so Bunny waited patiently.

3

While waiting, Bunny picked up litter and watered the flowers nearby.

4

Bear smiled and said, "Thank you for waiting. Now it's your turn!"

5

Bunny happily enjoyed the swing and thanked Bear.

Moral: Waiting for your turn with patience and doing something helpful makes everyone happy.

Jigyasa DIY Craft

PAPER PLATE ICE CREAM CRAFT

1

CUT & PAINT PAPER PLATES

Cut the top of paper plates into ice cream shapes with wavy edges, paint one scoop pink and

2

CUT & GLUE THE CONES

Cut the triangles from brown paper for cones. Glue the scoop to the cones.

3

ADD THE SPRINKLES

Apply glue and add colorful sprinkles to the pink ice cream scoop.

4

ADD DETAILS

Draw chocolate chips with a black marker on the green scoop. Glue a red pom pom cherry on the top of each scoop.

Jigyasa Drawing Challenge

Week 1: Create a Magical Tree

Week 2: Draw a Turtle City

Week 3: Draw a Flower That Can Talk

Week 4: Draw a Time Machine

Think and Draw your imaginations on a sheet.

Jigyasa Writing Prompt

Q. IF I could fly for one day...?

Q. My favorite season is...?

Think and write the answers on a sheet.

Parent Corner

Parenting Tips: Model Positive Behavior

Children Learn by Watching:

Habit Building Tricks Start Tiny

Big goals feel overwhelming.
Start with a habit that takes **less than 2 minutes**.

Read 1 page every night.

Put one toy back after playing.

Drink one glass water after waking up.

1. Say "Please" and "Thank You"

Use polite words regularly, even with your own children.

Example:
Thank you for helping me set the table..."

2. Keep Your Promises

Children learn responsibility when they see adults follow through on commitments.

Example:
If you promise a game after dinner, make time for it.

Screen Time Tips for Parents:

Set Daily Time Limits

Have clear and consistent limits for **entertainment screen time**.

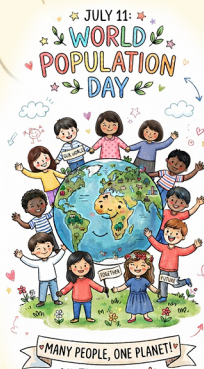

Example:

1 hour after homework and chores are completed.

Jigyasa Monthly Update

Jigyasa Fit & Fine Strong Bones Drink

Milk Magic!

Milk contains calcium and protein.

They help build:

1. Strong bones
2. Healthy teeth
3. Growing muscles

Bonus: Add a pinch of turmeric for an extra healthy drink.

6

Kids Achievement Wall

"Medhni's internship journey at JCT"

Medhni was a bright and curious student who joined **Jigyasa Charitable Trust** as an intern to explore her creative side. She was assigned to the animation team for the Trust's YouTube channel, where she learned how educational ideas are turned into engaging videos. In the beginning, she faced challenges in understanding storyboarding, timing, and animation tools, but she stayed determined. With continuous guidance from her mentors, she slowly improved her skills and gained confidence. Medhni started contributing her own creative ideas to make videos more attractive for children. One of her moral-based animated videos received positive feedback from the audience, which boosted her motivation. She also learned how to simplify complex concepts into easy visual stories for kids. Over time, she became a valuable part of the content creation process for the channel.

Eco Hero Challenge

DIY Compost Jar:

Collect kitchen waste like fruit peels in a jar and observe compost formation.

Eco Hero Picture of June Month Challenge

(Send your artwork and creativity, first 2 emails with artwork will showcase on the wall)

DIY COMPOST JAR

LEARN HOW TO MAKE COMPOST AT HOME!

Environment Awareness for kids

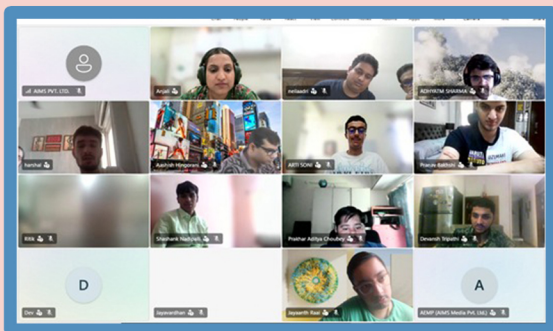

Use Reusable Items: Carry cloth bags, steel bottles, and reusable lunch boxes.

CHARITABLE TRUST

Jigyasa Edutainment

A 3-day online AI workshop was organized by **Jigyasa Charitable Trust** under its edutainment initiative for children. The workshop introduced kids to the basics of Artificial Intelligence in a fun and simple way. Through hands-on activities, they learned how AI can be used in daily life and creative projects. It was an engaging experience that sparked curiosity, creativity, and a love for future technology in young minds.
